MIUA 2009, the 13th in the series, is the principal UK forum for communicating research progress in image analysis applied to medicine and the biological sciences. It aims to encourage the growth and raise the profile of this multi-disciplinary field by bringing together the various communities involved. Contributions from outside the UK are welcome and encouraged. The scope of the meeting extends from analysis of medical and biological images to imaging physics and clinical studies.

**Technical papers** (5 pages) are solicited on any topic within the scope of the conference. Each paper will be evaluated by three reviewers.

**Challenge abstracts** (1 page) are also solicited. These should outline a challenge to the image analysis community from a clinical or end-user perspective.

MIUA is single-track with oral and poster presentations. All accepted contributions will be published and the full proceedings will be available at the conference. Selected papers are also likely to be published in the on-line journal, Annals of the BMVA. CPD accreditation is being sought from relevant organisations. MIUA 2009 will include a tutorial and keynote presentations.

Kingston University lies close to both Hampton Court and Richmond Park, is a few minutes away from the River Thames and is 20 minutes by train from London.
